partners²

Perfect partners for technology, airtime and software.

Intel is the world's largest chip maker and a leading manufacturer of computer, networking and communications products.

Intel® Centrino™ technology is a revolution in wireless mobility. It enables wireless LAN connectivity, extended battery life and breakthrough performance in thinner, lighter notebook designs that are easier to carry and simple to use whilst on the move. This allows true mobility – a genuine advantage in today's fast moving business world. See www.intel.com for more information.

Vodafone connect businesses, organisations and consumers to information and services in more innovative, dependable and valuable ways than any other network. With 120 million customers across 5 continents - Vodafone have the biggest global footprint and hence the world's largest mobile office.

Vodafone has GPRS coverage in over 24 networks in over 22 countries.

Microsoft® software solutions help businesses to hone their agility and stay ahead in an ever-changing market.

Microsoft® Windows® XP Tablet PC Edition is the evolution of notebook computing, combining the reliability and power of Windows XP Professional with the natural user interface and mobility of the Tablet PC. It drives the LIFEBOOK T Series.

Microsoft® OneNote™ is a note-taking and management program, to give the flexibility to take handwritten notes and draw diagrams or pictures as part of your notes. It is pre-installed on the LIFEBOOK T3010 CONNECT2AIR package.

Windows® XP Professional adds support for WiFi, making it seamless and secure.
